GRENADA, MISS.

TO OUR PRIENDS.

Gentlemen who arrive from the United States with late papers, will confer a favor by leaving them at the counting room of the APPEAL office, er at the editor's more, over GEO. LAKE's store, mout door north of the Collins House. In these days of uncertain mails from the South and a blockade on the North, our facilities to furnish the latest news from all quarters can be greatly increased by a little attention on the part of our friends, for which we shall ever remain grateful. Parties from above will confer an especial favor by furnishing as any Northern papers in their possession.

DEFEAT OF BURNSIDE. Our regular reports to-day give particulars of the terrible deteat sustained by a column of the Federal army, in an unsuccessful attempt to cross the Potomac into Virginia, on Saturday last. Their loss was greater in proportion to the numbers engaged than in any engagement since the commencement of the war, while ours was comparatively but trifling.

The Northern journals of the 19th contain on the 17th inst. They report the gerrison as anticipated."

ated Cumberland Gap, and that stronghold is again in the possession of our troops. The Federals are endeavoring to make their escape

FIGHT AT PONCHATOULA. Official Report of Lieut. Col. Vanghan.

POSCHATOULA, LOUBIANA, Brigadier General M. Jeff, Thompson, Commanding

GENERAL: Upon the merning of Monday, the 15th instant, at eleven o'clock, A M, (you soing absent,) I received information by the pickets that the enemy had fired on the train engaged in repairing the railroad beyond our lines, having landed at Manchac. Afterward the train arrived with one of the pick. ets, who reported the enemy three miles southward, and approaching. I immediately ordered command under arms to go to Ponchsonla, (the camp being one and a half miles northward of that place) Before we arrived the enemy had occupied the town and artillery to bear on the railroad, (their ine of approach) and immediately charged with me hundred and fifty of the 10th Arksmsas and thirty of Captain McRae's company. The enemy having deployed-showing more front than I had, and supposing it to be the advance of a larger force—I ordered a charge of the right empany to unmask them; when, finding more nen opposed than my whole command, my entire line gave way, leaving the section (the limers having been run away with by the horses mused to fire) at the mercy of the enemy, exept the defense of Captain McRae, Lieutenant Vaughan and fifteen men. I immediately atmoted to rally the men, and about three hunfred yards in the rear the other section of the battery (Captain Hoskins') halted, and took position. My infantry would not rully. Shortly afterward, by the assistence of Colonel Witt, rallied and immediately returned, recovering the battery-which was re-opened upon the enemy, who immediately retreated. I then of the enemy rushed across the river when ordered the battery forward, and opened at every position to a mile south of Ponchatoula, which was as far as cannon could go. I led the in-

heir boats, upon which they immediately left. under charge of Lieutenaut William; and the intrepidity of Captain McRae and Lieutenant Vaughan, who, with fifteen men, defended the or more, and retarding the enemy's progress un- ment fund by an equal-value. til our forces arrived.
